

CurrentCare DataGuide

A guide to information available in CurrentCare

What is CurrentCare?

CurrentCare is Rhode Island's Health Information Exchange (HIE). It's a secure network that collects information from practices, hospitals, labs, imaging centers, and other data sources to share crucial patient information. When patients enroll in CurrentCare, their providers can access their medical information to provide the right care at the right time.

CurrentCare for Me lets enrollees access their own health record online, 24/7, from anywhere.

531,000+
ENROLLED PATIENTS

41
DATA SHARING PARTNERS

230 M
PATIENT TRANSACTIONS

CurrentCare receives clinical information from 10 Electronic Health Record (EHR) systems:

athenahealth
Cerner
eClinicalWorks
eHealth Exchange
Epic

GE
MatrixCare
MEDITECH
NextGen
PointClickCare

Clinical Data Available

Documents

Clinical Documents

Continuity of Care Documents (CCDs) summarize clinical data from an organization. May include problems, meds, allergies, vitals, procedures, history, progress notes or other practice-specific information. Document title is 'Medical Record Summary.'

Discharge Documents (Hospitals)

Discharge CoCs (Continuity of Care Documents). Each hospital or ED visit can be viewed as a separate document, including prescribed meds, discharged-to location, patient instructions & more! Downloads to your computer in Word or WordPad.

Discharge Summaries are available only after sign off by a treating provider. May include a reason for hospitalization, discharge condition, and patient & family instructions. Frequently will contain Hospital Course/Progress notes.

ADT (Admission, Discharge, Transfer) Data

Ever wonder where your patients are? When a patient has been admitted or discharged, you can view **Encounter Data** from facilities that share ADT information with CurrentCare.

Clinical Data

You will find clinical data on the following tabs: **Medications, Conditions, Allergies, Vital Signs**, and you can see a list of encounters on the **Encounters** tab.

Test Results

You will find results on the following tabs: **Lab Results, Diagnostic Imaging, EKG Imaging**, the patient's **Summary Report** and within some **Documents**.

Part 2 Data

42 CFR Part 2 ('**Part 2**') is a federal regulation protecting the confidentiality of Substance Use Disorder (SUD) Patient Records. CurrentCare does not currently display any Part 2 Data.
