## Encounters

## Clinical Documents

## Discharge Documents

## EMS Documents

## Allergies

## Directives

## Conditions

## Medications

## Lab Results

## Diagnostic Imaging

## EKG Imaging

## Patient Surveys

## Vital Signs

### ENCOUNTERS

Shows where your patients have received care: Includes EMS, ED, inpatient and outpatient, along with the treating providers.

### CLINICAL DOCUMENTS (updated each visit)

Includes detailed clinical information from participating providers such as vitals, medications, history, problems, progress notes and more.

### DISCHARGE DOCUMENTS (encounter-specific)

These documents download to your computer so be mindful of PHI. ED and inpatient discharge documents are available immediately after discharge and include prescribed medications, discharged-to location and Discharge Summaries!

### EMS DOCUMENTS

See if a patient was transported to a facility. Details of the EMS encounter are available in the Pre-Hospital Patient Care Report. "Not Transported" could mean that the patient refused treatment, was treated at the scene, or has expired.

### ALLERGIES

Allergies are updated each time our data sharing partners verify this critical patient information. As allergies can be documented differently at these organizations, they are not overwritten; if you see a notation to "see comments," refer to the corresponding CCD under the clinical documents tab.

### DIRECTIVES

Holds Advance Directives.

### CONDITIONS

Diagnoses that come from participating hospitals are shown at the top of the screen; the problem list is updated when patients are treated in a participating hospital or ambulatory practice.

### MEDICATIONS

Includes prescribed and dispensed medications from participating providers and/or covered by participating pharmacy benefit managers.

### LAB RESULTS

View up-to-date patient labs from all participating labs in one place. View each lab report individually or across time and from different labs in cumulative view.

### DIAGNOSTIC IMAGING

View imaging reports from participating radiology facilities.

### EKG IMAGING

View EKG reports from participating radiology facilities.

### SURVEYS

Holds results of various surveys and assessments.

### VITAL SIGNS:

Displays vital signs over time, in a table and in a graph.

Participating providers, our data-sharing partners, are listed in the CurrentCare Guidebook, available here: [RIQI.org/DataGuide](http://RIQI.org/DataGuide)

#### PATIENT SEARCH:

Search for patients by last name and DOB. Tip: Record patient's CurrentCare ID number for future lookups.

#### SUMMARY REPORT:

View the patient's record in one screen (web page format) or switch to PDF view.

#### PART 2 HISTORY:

Access treatment information from facilities covered under the Federal Confidentiality Rule (42-CFR-Part 2).

#### KNOWLEDGE CENTER:

Visit [RIQI.org/CurrentCare](http://RIQI.org/CurrentCare) for resources about different topics including how to get help.

#### RI PDMP:

Link to the login screen for the RI Prescription Drug Monitoring Program.

## Icons

Depending on patient history, you may see these icons in Viewer:

#### Icons on the status bar:

Icon	Description
	Indicates that another address exists for this patient
	Indicates Patient Demographics as reported at the time of enrollment; this data is only changed by the information received from a data-sharing partner
	Indicates 'alias names exist' when available
	Indicates that the patient is deceased

#### Icons on the Clinical screens:

Icon	Description
	Cumulative View shows discrete data across time, from different labs; a cumulative graph is also available
	Sort column: A to Z, or Z to A

## Forgot Your Login Info?

- If you forgot your username, click "Forgot Username".
- If you forgot your password, click "Forgot Password".

Please enter your username and password

## Need to Print?

### How to Print:

	This icon appears on many Viewer screens
<a href="#">Print</a>	This link appears on dictated reports
<a href="#">Print Graph</a>	Appears on the Cumulative Graph

### Patient Summary Report:

On the Patient Summary Report Screen, click the drop-down arrow to change from web page view (HTML) to a PDF, then print only the pages you need.

Patient Summary (HTML) ▾

Consolidated CDA CCD

Continuity of Care Document (CCD, HITSP C32)

Patient Summary (HTML)

## Refresh Page

This message appears when data is being pulled into a record; be sure to wait until all sources turn green, then click the 'Refresh' link to download all information for this patient:

**Patient record is incomplete! You must click 'Refresh' to update when all sources are GREEN:**

Documents [Refresh](#)

## Quick-Find

Do a "Quick-Find" on the Summary Report or any screen, by pressing the CTRL key and F at the same time. This opens a search box where you can type in a keyword and go directly to that place in the record.

## Log in to [RIQI.org/ViewerLogin](https://riqi.org/ViewerLogin) -

1. Search for your patient by last name.
2. Check the list and verify your patient by name, gender, and date of birth.
3. Record the patient's CurrentCare ID number in your own EHR for faster look-up at next appointment.

For more tips on searching, visit

\* NOTE: Some records have been filtered due to Con:

Identifiers	Name	Gender/DOB	Address
<input type="checkbox"/> 578210	<a href="#">shelley, fran</a>	F 1949-09-03	123 CurrentC
<input type="checkbox"/> 578212	<a href="#">Shelley, Alphonse</a>	M 1970-03-15	123 CurrentC

## Patients must Enroll 'Opt-In'

The CurrentCare Viewer can be accessed by authorized users only for coordination of care/treatment purposes.

Patient data is protected under HIPAA, the RI Health Information Exchange (HIE) Act of 2008, the Federal Confidentiality Rule - 42 CFR Part 2, and other applicable State and Federal laws and regulations.

Only use your access to look up individuals you are treating or for whom you are coordinating care. Do *not* look up yourself, family members, or coworkers.

## Part 2 History\*

Can be shared only if patient signs an additional consent form annually, at the 'Part 2' Data Sharing Partner facility.

Any available information remains behind the 'Part 2 History' tab until selected.

Once displayed, you may not copy, rewrite, print, or discuss outside the treatment team.

## The Override Consent Feature

- Is available only to licensed prescribers
- May be necessary to view a patient's record, depending on patient's enrollment option
- Should be accessed only in an emergency

## HIE

RI Department of Health Website page for Health Information Exchange (HIE) Advisory Commission and link to RI HIE Act of 2008:

[health.ri.gov/partners/advisorycommissions/healthinformationexchange](http://health.ri.gov/partners/advisorycommissions/healthinformationexchange)

## Need patient info quickly? Look in the Viewer...

- Prepare for a new patient or annual patient visit.
- Find the latest lab, pathology, or radiology report for a patient.
- Read the details of an EMS encounter.
- Quickly see medications that have been dispensed to a patient by other providers.
- Know when a patient has had an emergency or inpatient encounter at a hospital.

## Questions? 888.858.4815

\*Part 2 refers to the Federal Confidentiality Rule, 42 CFR Part 2, which provides privacy protections for substance use disorder treatment records of patients seeking substance use disorder treatment at a facility that provides substance use disorder education, treatment, or prevention and is regulated or assisted by the federal government.

Privacy Policy and Terms of Use:

“

With CurrentCare getting what I need for our patient care is much easier and faster. ...a faster, streamlined method for retrieving patient records.

Having this information promotes education and discussion during the visit. ...it's nice to have the information so quickly and readily available when I need it.

”
